

DAMILOLA EHIMARE

Fintech Founder & Full-Stack Developer | Finance & Payments Technology

Lagos, Nigeria · Open to Remote / Global | +234 813 073 0071 | damilolaehimare@gmail.com | [LinkedIn](#) | myropay.com

PROFILE

Self-taught full-stack developer and fintech founder with close to a decade of finance experience. Designed, built, and shipped five production platforms end-to-end — spanning cross-border payments, cryptocurrency exchange, algorithmic trading, and social commerce — reaching users across Africa. Pairs hands-on PHP/JavaScript engineering with financial reporting, auditing, and risk-control expertise (B.Tech in Accounting) to build compliant, scalable fintech products from the ground up, alone.

CORE SKILLS

Languages & Data: PHP · JavaScript · Python · MySQL · HTML5 · CSS3

Fintech Engineering: Payment gateway integration (Flutterwave, Paystack) · Virtual accounts · Webhooks & REST APIs · KYC/KYB · Escrow · Security hardening

Finance & Accounting: Financial reporting · Auditing · Public sector accounting · Budgeting & forecasting · Reconciliation · XERO / QuickBooks / SAGE50

Product: SPA architecture · UI/UX & design systems · Cross-platform (mobile + desktop) delivery

FOUNDER & BUILDING EXPERIENCE

Founder & Lead Engineer — MyroPay Technologies LLC

Jan 2024 – Present

Cross-border payments platform for Africa and global markets · myropay.com

- Architected and built a full payments stack from scratch — personal wallet app, business dashboard, checkout, hosted payment pages, and admin panel — on a PHP backend with JavaScript SPAs
- Engineered virtual account issuance, escrow, invoicing, payroll, and webhook infrastructure integrated with Flutterwave and Paystack
- Led a full security hardening initiative across secrets management, fraud/PIN-brute-force defenses, webhook integrity, and encryption
- Directed product design and a full UI/UX redesign across five platform surfaces (personal, business, checkout, pay, POS), spanning mobile and desktop

Founder — Clova Exchange

3-year build

Cryptocurrency exchange platform · clova.cc

- Designed and built a crypto exchange platform end-to-end over three years, covering trading, wallets, and the user-facing web application

Founder — Algrythm Fx

Bot-as-a-service algorithmic trading platform · algrythm.xyz

- Built a platform enabling users to run automated trading strategies against their own broker APIs via a hosted bot service

Founder — Store Link

Social commerce platform · storel.ink

- Built a social commerce platform giving everyday store owners the tools to sell online

Founder — Renteaze

In development

Rental marketplace with dual payment gateways · renteaze.xyz

- Building a rental marketplace with an escrow booking flow, dual payment gateways, and a role-based admin panel

FINANCE EXPERIENCE

Finance Intern — Ministry of Finance, Oyo State

Nov 2022 – Oct 2023

- Supported public sector accounting: personnel emolument recording and monthly bank reconciliations

Administrative Accountant — Tedd Properties & Est. Dev.

Dec 2021 – Aug 2022

- Managed departmental accounting and administrative processes; built structured account tables for remote recordkeeping

Technology Officer — Lexx Corporate Ltd

Sep 2020 – Oct 2021

- Coordinated stakeholder activities and managed budget preparation for program funding and implementation

IT Manager — Napmantronix Limited

Jan 2016 – Sep 2020

- Managed IT operations and supervised accounting functions; evaluated technology needs and recommended systems

EDUCATION

B.Tech, Accounting — Ladoke Akintola University of Technology, Ogbomosho, Nigeria

2015 – 2022

CGPA 3.25/5.00 (Second Class Lower Division) • Faculty of Management Sciences

Certificate in Digital Marketing, Google Digital Workshop — 2017
